

AI BIBLE GOSPELS

THE COMPLETE BIBLICAL TIMELINE

The Reading Plan

81 books. 1,362 chapters. In the order the events actually
happened.

The 1611 King James Bible with the Apocrypha restored.

Your table of contents is not a timeline.

The Bible you own groups its books by type: law, history, poetry, prophets, letters. It never tells you when anything happened. So you finish Malachi, turn one page, and land in Matthew four hundred years later with nobody explaining what went on in between.

This plan puts the books in the order the events unfolded, and it puts the Apocrypha back between the Old and New Testaments, where it sat in 1611. Read it this way and the prophets land where they were always going to land. Chronology reveals context.

How to read it. Take the readings in order, one a day if you can. Each row on the pages that follow is one reading: the book, the chapters, and where it sits in the story. Every reading is also one episode of the series on the channel, narrated word for word from the 1611 text, so you can read it, listen to it, or both. Read from the King James Bible with the Apocrypha that came with this plan: it is the same text the series narrates, and every book in it is bookmarked.

In the beginning God created the heaven and the earth.
